PURCHASER'S SPECIFICATION		SUPPLIER'S SPECIFICATION	
<p>Summary Description of the Equipment:</p> <ul style="list-style-type: none"> • The OR swivel tools have been developed specifically for use in operating rooms and theatres • The seat is upholstered with electrically conductive synthetic leather and the castors are electrically conductive as well • The height adjustment is done with a chrome gas pressure spring by hand or foot control <p>Physical Characteristics or Attributes, Forms and Design of the Equipment:</p> <ul style="list-style-type: none"> • 5-arm aluminum base in polished finish • Standard with electrically conductive brake (hard) castors for soft floors. The seat (thickness 70-75mm) has slight inclination (3-4°) towards the backrest • The height- adjustable and tiltable backrest cushion has a thickness of 40-45mm and it is just like the seat, covered with black, electrically conductive back synthetic leather (cotton/polyester mix and 100% PVC compound coating) • Includes a height-adjustable foot ring serving as footrest • Maximum load 120-140kg • Height adjustment of the seat cushion is activated with the foot via a chrome-plated foot ring. This ring has a diameter 280-300mm and is located under the base, between the feet. • Seat height is adjusted with a hand lever. With a range of 400-500mm <p>Functionality and Performance:</p> <ul style="list-style-type: none"> • Accommodates surgeons of all physiques with height and seat adjustability for perfect hip and leg adjustment • Promotes better posture and comfort with both vertical and horizontal lumbar support • Ergonomically placed pedal controls allow you to effortlessly raise or lower the seat and lock into place <p>With Standard Warranty</p>
